Vetted Tutor

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

With 18 years of experience, I've had the privilege of working with students from the UK, Europe, and the US, guiding them through challenging admission exams and academic coursework. I specialise in helping students prepare for the LNAT, providing them with insights from my years of experience and proven exam strategies. Many of my students have gone on to study at top universities.

My expertise extends beyond admissions; I also have significant experience in A-Level and IGCSE History. I provide personalised support for students looking to improve their essay writing skills and deepen their understanding of historical content. My students often find themselves excelling in these subjects and feeling more confident in their academic pursuits.

Over the years, I have also developed a unique approach to tutoring US admissions tests, tailoring my sessions to meet the distinct requirements of these exams. Many of my students have achieved high scores, gaining access to prestigious US institutions. This diverse experience has allowed me to guide students in achieving their academic and admissions goals effectively.
